COMPENDIUM VI

“In 1981, I started up my new Tonino Lamborghini Style and Accessories company.

At the time I was assisting my father in the family group, but I felt the need to do something exclusively of my own, different from the world of engines. I have always been interested in design and accessories.

I really liked brands like Gucci and Hermès and I was inspired by them to create an activity with signature branded products. Just as Gucci was inspired by the equestrian world with iconic elements such as a bracket or a bite, I took inspiration from the bearing, the piston, the springs, the suspensions.

I’ve always loved products linked to mechanics and engineering. Thus, it was obvious for me that the first accessory that I realized was a watch. And this is the reason why in each product I create there is a special detail that recalls my family mechanical and automotive heritage. Uncompromising spirit, Italian ingenuity and design - together with the timeless legend of a brand recognized throughout the globe. I hope my clientele understands my personal vision behind all my branded products: to spread the passion and spirit of Italy with unique and distinctive products, inspired by Italian industrial design and the Lamborghini family mechanical heritage”.
